

Electric Conductive Closed Container

>>> Conductive Container

- The body is made from electric conductive resin(gray).
- Two types of covers are available. One is made from electric conductive resin and the other is made from anti-static resin(clear).
- It break static electricity and repels dusts.
- As the cover has a silicone packing, it is air tight.
- As antistatic cover is transparent, contents can be easily recognized from outside.
- The body and cover can be easily separated by sliding sideways for easiness of washing.
- It can be stacked up to save space.

Transportation Cart TA-3

Dimensions W620×D425×H900mm
Material Stainless
Remarks FIC-11,12,13,14,
Using combinedly

Usage example

Body Conductive Cover Anti-static

Electric Conductive Closed Container FIC-11BC

Dimensions W525×D398×H190mm
Inner Dimensions W454×D320×H165mm
Material Body : Conductive ABS
Cover : Anti-static ABS
Color Body : Gray
Cover : Clear
Surface resistivity Body:10³Ω/□
Cover:10⁸Ω/□

Body Conductive Cover Anti-static

Electric Conductive Closed Container FIC-12BC

Dimensions W525×D398×H135mm
Inner Dimensions W452×D318×H110mm
Material Body : Conductive ABS
Cover : Anti-static ABS
Color Body : Gray
Cover : Clear
Surface resistivity Body:10³Ω/□
Cover:10⁸Ω/□

Body Conductive Cover Anti-static

Electric Conductive Closed Container FIC-13BC

Dimensions W398×D345×H190mm
Inner Dimensions W327×D267×H165mm
Material Body : Conductive ABS
Cover : Anti-static ABS
Color Body : Gray
Cover : Clear
Surface resistivity Body:10³Ω/□
Cover:10⁸Ω/□

Body Conductive Cover Anti-static

Electric Conductive Closed Container FIC-14BC

Dimensions W398×D345×H135mm
Inner Dimensions W325×D265×H110mm
Material Body : Conductive ABS
Cover : Anti-static ABS
Color Body : Gray
Cover : Clear
Surface resistivity Body:10³Ω/□
Cover:10⁸Ω/□

Body Conductive Cover Conductive

Electric Conductive Closed Container FIC-11BB

Dimensions W525×D398×H190mm
Inner Dimensions W454×D320×H165mm
Material Body : Conductive ABS
Cover : Conductive ABS
Color Body : Gray
Cover : Gray
Surface resistivity 10³Ω/□

Body Conductive Cover Conductive

Electric Conductive Closed Container FIC-12BB

Dimensions W525×D398×H135mm
Inner Dimensions W452×D318×H110mm
Material Body : Conductive ABS
Cover : Conductive ABS
Color Body : Gray
Cover : Gray
Surface resistivity 10³Ω/□

Body Conductive Cover Conductive

Electric Conductive Closed Container FIC-13BB

Dimensions W398×D345×H190mm
Inner Dimensions W327×D267×H165mm
Material Body : Conductive ABS
Cover : Conductive ABS
Color Body : Gray
Cover : Gray
Surface resistivity 10³Ω/□

Body Conductive Cover Conductive
